## HOME CHARGERS

# Peblar Business & Alfen Eve Single Pro-line

Q8 electric has two smart, elegant and compact charging solutions for you. The Peblar Business is specially designed for home use with a charging capacity of 3.7kW - 22kW. In addition, with its charging capacity of 3.7kW - 22kW, the Alfen Eve Single Pro-line can be used for both home and office.

Both can be mounted on the wall or on a mounting post. They feature a fixed cable and come with an integrated plug holder. Users of both charging stations can view their charging data via any internet-connected device.

PEBLAR BUSINESS

ALFEN EVE SINGLE PRO-LINE

## OFFICE CHARGER

# Alfen Eve Double Pro-line

For chargers at the office, you can rely on the Alfen Eve Double Pro-line. The dual plug point allows two cars to charge simultaneously per installation. This charging point does not include a fixed cable. This charging solution can be installed either on the wall or on a mounting post. You can also opt to allow your own employees only to charge or to open your charging point(s) to third parties at a rate of your choice. You can even opt not to make charging points visible in other EV apps.

ALFEN EVE DOUBLE PRO-LINE

# Always charged with Q8 electric: at home and on the road!

With Q8 electric, your fleet has access to **over 500,000 charging points across Europe.**

Find the charging points near you via the Q8 electric app. No need to register.

## Why choose Q8 electric?

- ✓ Easy management and clear invoicing
- ✓ No charging stress thanks to access to over 500,000 public charging points in Europe
- ✓ Possibility of installing electric charging points at your company and at your employees' homes
